MEMORANDUM FOR: Acting Director of Planning, Programming and Budgeting

SUBJECT: Personnel Ceiling for FE Division, Vietnam Station, to accommodate Military Personnel

25X1A

1. At a meeting on 29 November 1966 with the DDP; DDP/OP; Chief, [redacted] MPS; Chief, FE Division; and the undersigned, it was agreed to go forward with the request for the detail of [redacted] Military Officers for Agency use in Vietnam. The DDP requested that Mr. [redacted] and I meet with your office to relay this request and to assure that arrangements were made to obtain necessary ceiling to accommodate the military group.

25X1A

2. The matter was then discussed on 29 November 1966 with your office with the conclusion reached that Mr. [redacted] would take care of the problem of the personnel ceiling requirements. He had stated in the meeting that he believed we would not need ceiling for the [redacted] Military personnel as they would be handled as contract or remain on Defense ceiling. We recommended that to avoid possible later problems that the matter should be resolved promptly with the Bureau of the Budget as it appeared to us that the military personnel would count against ceiling.

3. Inasmuch as we are now ready to process the military personnel for the FE requirements, it is necessary for an early resolution of the ceiling status of this group of [redacted] personnel. If they are to be charged against the FE ceiling, it is requested that an appropriate adjustment of [redacted] be made, or alternatively that agreement be obtained that the military personnel need not be counted against ceiling.
